My instructions with easy to follow patterns and directions are designed as a construction project for the beginner woodworker. Extensive attention is given to speed and ease of construction, with a minimum and choice of tools. A great Picket Fence can be built with just a skill saw, hammer, level, hand saw, and drill (or small nail gun). Directions are aimed at the beginner woodworker, but should not bore even an experienced carpenter. WARNING: Everyone Will Love This Civil War Style Garden Picket Fence Design. Just about everyone who sees it will want you to build one or more,

for them. (That's the reason I decided to write these plans.) Unlike most plans out there, you will be able to understand these! I have looked at others and I guarantee they are not as good as my plans! The plan features: • 16 pages containing very detailed, step by step instructions. • Each step includes diagrams and or photographs to assist in the construction process. • 5 Patterns; One for each piece that makes construction so easy a "caveman could do it"! • Can be built entirely from any wood of your choice. • Tips, Tricks and Notes that allow you to cut without error the first time. • Can be built with just a skill saw, hammer, level, hand saw and drill (or small nail gun). • This project plan is designed for the beginner woodworker, but should not bore even the most experienced carpenter.
