

Gardening 101: The Ultimate Guide for Beginners: Five Easy Steps to a Backyard Garden

I have been gardening for most of my adult life. I enjoy every stage of gardening. Early spring I begin by planting seeds into small Styrofoam cups, which produce seedlings for the upcoming garden season. Next, I begin aerating and fertilizing the soil in preparation for planting the seedlings. With gently care and proper watering, a harvest of bountiful vegetables is made possible. I have written this easy 5 step book for the novice garden enthusiast. It is a straight forward guide from start to finish. I hope you get as much enjoyment out of this activity as I do.
