

Quick, Easy & Cheap: Build Your Own Potting Bench: Volume 2 : An Urban Farming Guide (Urban Farming Simplified)

Every gardener needs a large work surface and a place to keep tools and supplies organized - a nice potting bench is the perfect solution. A potting bench is the ideal place for potting plants, repotting them, starting seedlings, and other general messy gardening jobs. Your potting bench can also keep all your gardening supplies neatly organized in one spot. There never seems to be enough space in the garage or backyard to store gardening supplies. Your potting bench is a great place to store hand tools, gloves, garden pots, bags of soil, and watering cans while keeping them within easy reach at all times. Potting benches are not just for gardeners. They also provide a great surface for outdoor parties and a really good place to store BBQ supplies. Anyone in need of an attractive place to store any outdoor equipment or supplies would benefit from building their own potting bench. Check out all of the titles in the Urban Farming Simplified series.
