

The Garden At Highgrove

The Prince of Wales describes how he has created one of the great gardens of our time. When The Prince of Wales bought Highgrove House in 1981 the surrounds consisted of a brown path which ran around the house, a lawn and a few thorn bushes. Twenty years later, he has transformed the land adjoining the house into several exquisite gardens which embody his gardening ideals and organic principles. With help from some of Britains finest designers, including The Marchioness of Salisbury, Rosemary Verey, Miriam Rothschild and Sir Roy Strong, the Prince of Wales has created highly individual gardens which have now, with his own ideas, reached maturity. The Prince of Wales describes the thinking behind each garden, the mistakes and the triumphs, and his plans for the future. Lavishly illustrated with photographs which capture both the scope and detail of each garden, this book will delight and inspire both gardeners and horticulturalists at every level.
